Guidelines for disposal of e-waste materials: chemical and solid waste material

- Red – Hazardous/Non-recyclable
- **Composting Units:** Install small-scale compost pits or bins for garden/kitchen waste.
- **Recycling Partnerships:** Collaborate with NGOs or recyclers for periodic collection.
- **Ban Single-Use Plastics:** Use alternatives in canteens, labs, and events.

Children, Women & Health Protection

- **Children are most vulnerable** to toxicants like lead and mercury—linked to:
 - Stillbirths, premature birth
 - Cognitive and learning impairments
 - Asthma and respiratory dysfunction
- **Policy:** Ensure that no child or untrained individual is involved in any form of waste processing.
- **Pregnancy safety:** Ensure pregnant staff are not exposed to labs or spaces with hazardous materials.

Institutional Roles & Responsibilities

Waste Management Committee (WMC)

- Form a 2–4 member committee including faculty, admin, and students and is coordinated by campus chief.
- Duties:
 - Monitor waste practices
 - Report violations
 - Coordinate awareness drives
 - Liaise with municipal and recycling bodies

Training & Curriculum Integration

- Integrate environmental and health content in studies curriculum

Conclusion

A clean, safe, and environmentally conscious campus begins with responsible waste management. Adopting the above strategies will:

- Improve public and environmental health
- Promote resource recovery and circular economy
- Set an example for surrounding communities
